

TRUST SecurePIM

Make mobile work secure.

Protect your company data from mobile threats now!

OUR MISSION

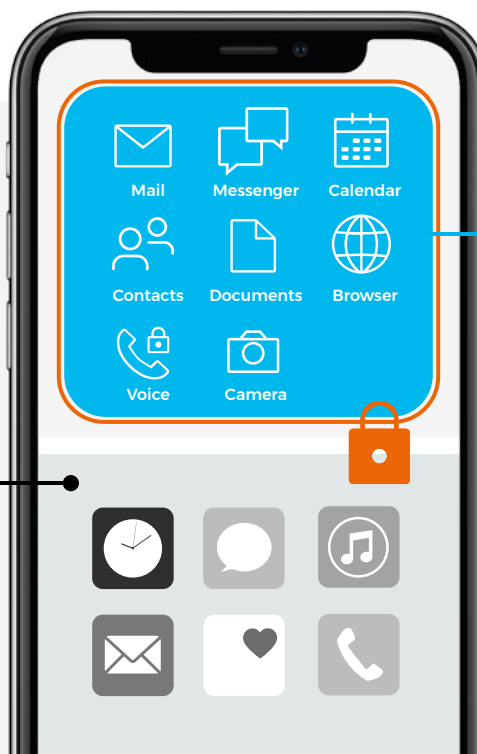

We protect all your company data against mobile threats with only one App.

YOUR SECURITY

All business data is encrypted and protected. Private contacts, pictures, apps are strictly separated. 100% GDPR compliant.

YOUR FREEDOM

Allowing is better than restricting. Just let your employees work on any device – either business or private device.

PRIVATE

BUSINESS

All in one app: Data. Communication. Collaboration.

Mail

Messenger

Calendar

Contacts

Camera

MAXIMUM PROTECTION FOR YOUR COMPANY DATA

Now you can communicate and exchange data securely with your colleagues while on-the-go: email, chat, booking meetings, access internal documents and much more. The highest encryption standards protect your company data and ensure full compliance with GDPR so you avoid fines!

QUICK USER ADOPTION

BYOD is loved by employees – but MDM impacts their freedom. With an intuitive design just like an office app, and simple installation, employees are up and running in minutes with minimal support impact.

SIMPLE INTEGRATION

SecurePIM integrates easily, with or without MDM, meaning you have full control of your company data regardless of the device. If it's lost or stolen, all data can be instantly wiped, giving full peace of mind.

Money back promise

If you get fined for GDPR violation fee you get your money back*
