# Proofpoint Email Rapid Risk Assessment

What is it?

- The Proofpoint Email Rapid Risk Assessment is an instant two-week history of the health of your email environment to show vulnerabilities and attacks reaching your end-user mailboxes.

Inbound Email Protection Breakdown					
Total Inbound	Reputation	Content	Attachment	URL	Customer Mail Store
3.9M	48	3.9M	20K	622K	12K
	• IP Reputation	• TAP Feed • Signatures • Classifiers: Phish, Virus, Spam, Impostor, Bulk, etc	• Attachment Detonation	• URL Detonation • URL-rewriting • Click-time blocks	
		Known Threats		Targeted Threats	

ⓘ Message counts for **Attachment** and **URL** threats are aggregated across your organization's clusters.

Who are we targeting?

- Microsoft Office 365 customers.

Why your customers will say "yes!"

- Email remains the #1 attack vector
- The Email Rapid Risk Assessment will give them an instant understanding of what may be bypassing their current email solution – which may give you the opportunity to reinforce or replace their current email security solution(s).

Process for your Customer

- Customer is invited to grant APIT Access in just a few clicks
- Takes five minutes to deploy
- Provides an instant two-week history
- Identifies threats facing end users

Get Started Today!
